

# Double Midge Flip

The double midge flip is an important maneuver for designing pretty patterns on cubes of order greater than 3.

# AlgorithmFinder4 – User Input Form – Double Midge Flip – 4x4x4 Cube

AlgorithmFinder4 – Cube Layout – Double Midge Flip – 4x4x4 Cube

**Note:** By using algorithms that rotate centers 2 times, only 1 head and 1 leg per lizard change color

## Double Midge Flip – Algorithms

If A is an algorithm of order 2, then  $(A)2 = A \cdot A' = I$  (Identity) or equivalently:  $A = A'$ , where  $A'$  is the inverted algorithm of A. This means that if A is a maneuver of order 2 applied to a cube, then  $A'$  is also a maneuver of order 2 and. The cube state will be exactly the same at the end of any of the 2 maneuvers A and  $A'$ .

Templates have been created to find algorithms that will flip any double midges on a 4x4x4 cube. All algorithms are 15 moves long. These are based on concatenations of monoswaps of edges (like X2) and slice moves (like MX and MX2). There are 12 cases in all.

Some algorithms will rotate centers on a selected face whereas others will rotate centers on one of the adjacent faces. *This means that a face with non-rotated centers can be selected if there is already a pattern displayed on it that should not be rotated.*

In the Table below, a template like MX2 is any move in set {MF2, MR2, MU2, ML2, MD2, MB2}, X2 is any move in set {F2, R2, U2, L2, D2, B2}, MX is any move in set {MF, MF', MR, MR', MU, MU', ML, ML', MD, MD', MB, MB'}, and MX' is any move in set {MF', MF, MR', MR, MU', MU, ML', ML, MD', MD, MB', MB}.

# Cube Layout – Double Midge Flip – FR Midges – 1/12

AlgorithmFinder4 - Microsoft Excel

The table below shows the layout of the cube faces. The columns represent the faces: F (columns A-D), R (columns E-H), S (columns I-L), T (columns M-P), U (columns Q-R), V (columns S-T), W (columns U-V), and X (column Y). The rows represent the layers: 1 (top), 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 12 (bottom).

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y			
1					32	33	34	35										32	33	34	35							
2					36	37	38	39										36	37	38	39

# Cube Layout – Double Midge Flip – FL Midges – 3/12

AlgorithmFinder4 - Microsoft Excel

The screenshot shows a Microsoft Excel spreadsheet titled "AlgorithmFinder4 - Microsoft Excel". The main content is a 12x12 grid of numbers representing a cube layout. The grid is divided into four quadrants by color: top-left (light blue), top-right (yellow), bottom-left (red), and bottom-right (orange). The numbers represent specific cube states, including centers set to -1 for rotation. The top-left quadrant contains numbers 32-35, 36-39, 40-43, and 44-47. The top-right quadrant contains 32-35, 36-39, 40-43, and 44-47. The bottom-left quadrant contains 48-51, 52-55, 56-59, and 60-63. The bottom-right quadrant contains 48-51, 52-55, 56-59, and 60-63. A note at the bottom states: "Note that all centers of faces F and L have been set to -1 so that they can freely rotate."

Note that all centers of faces F and L have been set to -1 so that they can freely rotate.

# Cube Layout – Double Midge Flip – RB Midges – 6/12

AlgorithmFinder4 - Microsoft Excel

The table shows a 12x12 grid of numbers representing a cube layout. The numbers are color-coded: white for 1-48, light blue for 49-51, red for 52-63, yellow for 64-75, orange for 76-95, and dark blue for 32-39, 40-43, 44-47, 56-59, 60-63, 68-71, 72-75, 76-79, 80-87, 89-91, 92-95. The layout is split into two main sections: a left section (rows 1-12, columns A-Y) and a right section (rows 5-12, columns A-Y). The numbers represent specific positions on a Rubik's cube, with some centers set to -1 to allow for rotation.

Note that all centers of faces R and B have been set to -1 so that they can freely rotate.

# Cube Layout – Double Midge Flip – UB Midges – 8/12

AlgorithmFinder4 - Microsoft Excel

The screenshot shows a Microsoft Excel spreadsheet titled "AlgorithmFinder4 - Microsoft Excel". The main content is a cube layout consisting of two 4x12 grids of numbers. The first grid (A1 to Q12) represents the current state, and the second grid (R1 to Y12) represents the target state. The numbers are arranged in a specific pattern, with some cells colored (e.g., orange, red, blue, yellow) to indicate specific moves or positions. A note at the bottom of the grid states: "Note that all centers of faces U and B have been set to -1 so that they can freely rotate." The Excel ribbon is visible at the top, and the status bar at the bottom right shows "FR 06:01".

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y			
1					32	81	82	35									32	81	82	35								
2					36	42	41	39									36	-1	-1	39

# Cube Layout – Double Midge Flip – LD Midges – 11/12

AlgorithmFinder4 - Microsoft Excel

The table below shows the data from the Excel screenshot:

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y			
1					32	33	34	35									32	33	34	35								
2					36	37	38	39									36	37	38	39								
3					40	41	42	43									40	41	42	43								
4					44	45	46	47									44	45	46	47								
5	48	49	50	51	0	1	2	3	16	17	18	19					48	49	50	51	0	1	2	3	16	17	18	19
6	52	58	57	55	4	5	6	7	20	21	22	23					52	-1	-1	55	4	5	6	7	20	21	22	23
7	56	54	53	59	8	9	10	11	24	25	26	27					56	-1	-1	59	8	9	10	11	24	25	26	27
8	60	68	72	63	12	13	14	15	28	29	30	31					60	68	72	63	12	13	14	15	28	29	30	31
9					64	65	66	67	80	81	82	83					64	65	66	67	80	81	82	83				
10					61	69	70	71	84	85	86	87					-1	-1	-1	71	84	85	86	87				
11					62	73	74	75	88	89	90	91					-1	-1	-1	75	88	89	90	91				
12					76	77	78	79	92	93	94	95					76	77	78	79	92	93	94	95				

Note that all centers of faces L and D have been set to -1 so that they can freely rotate.

# Cube Layout – Double Midge Flip – DB Midges – 12/12

AlgorithmFinder4 - Microsoft Excel

The screenshot shows a Microsoft Excel spreadsheet titled "AlgorithmFinder4 - Microsoft Excel". The main content is a 12x12 grid of numbers representing a cube layout. The grid is divided into four quadrants by color: top-left (orange), top-right (light blue), bottom-left (yellow), and bottom-right (light green). The numbers range from 1 to 95. Some numbers are highlighted in various colors (orange, red, blue, green, yellow) to indicate specific states or moves. The top-left quadrant contains numbers 32-35, 36-39, 40-43, and 44-47. The top-right quadrant contains 32-35, 36-39, 40-43, and 44-47. The bottom-left quadrant contains 64-67, 68-71, 72-75, and 76-79. The bottom-right quadrant contains 48-51, 52-55, 56-59, and 60-63. A note at the bottom states: "Note that all centers of faces D and B have been set to -1 so that they can freely rotate."

Note that all centers of faces D and B have been set to -1 so that they can freely rotate.
